pine

Tuscan Oil is a beautiful and supple full grain, naturally milled pebble leather crafted in the heart of Tuscany that has been made for a true leather enthusiast using only the finest of French hides.

pine

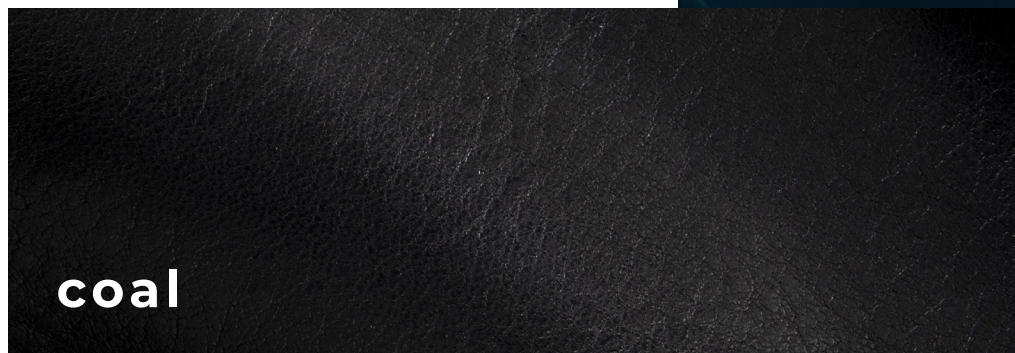

smog

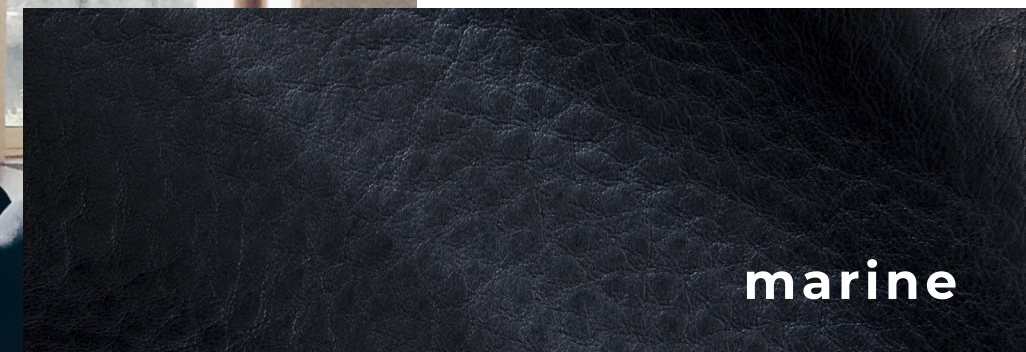

Tuscan Oil is produced with a combination of new and old generation tanning which is 100% full vegetable tanning using the powders of mimosa chestnut, and a sophisticated drum dying technique to produce a pure aniline article

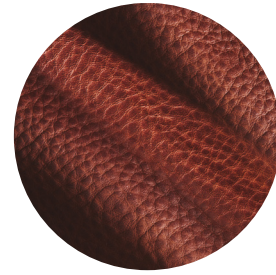

This special formula contains an enriched blend of fats, oils and greases which are tanned into the leather giving it durability, softness and a rich round feel.

TUSCAN OIL COLLECTION

Being an exquisite vegetable tanned piece of leather it will age gracefully like a fine wine. The longer the product it is used, the more it will soften and darken with use, growing its own beautiful patina.
