CTL AVERAGE DIMENSIONS OF A COWHIDE

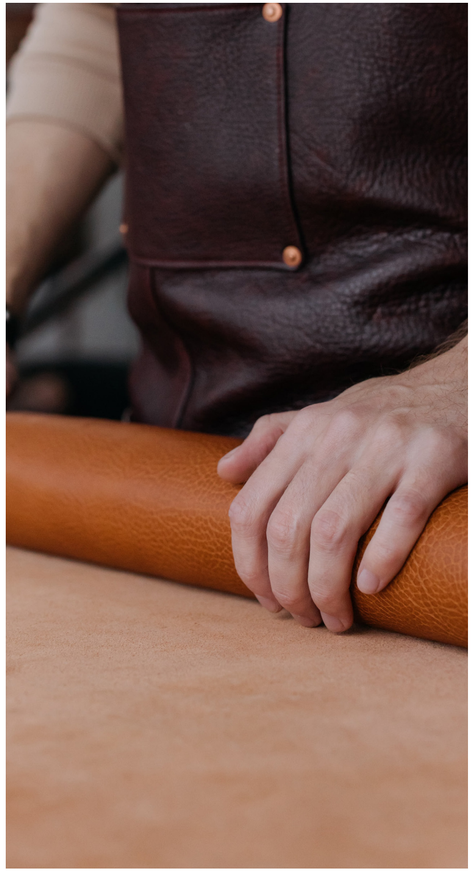
AVERAGE DIMENSIONS OF A COWHIDE

This diagram should be used as a guide when determining square footage requirements.

We can guestimate FT2 you require, however this usually comes from the upholsterer, as it all depends on what you are willing to 'SHOWCASE' as natural characteristics in the finished goods.

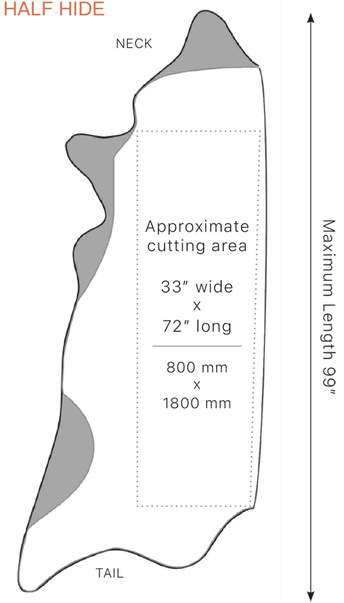
This is a natural product and not like vinyl or fabrics, natural aspects within those measurements should be considered.

These diagrams are to show you an average usable area, this said it all depends on the leather type and natural characteristics at hand. The more coverage/printed/pigmented leather, the larger/sometimes cleaner the cut.



Average Half Hide Size
25 sq ft +/-

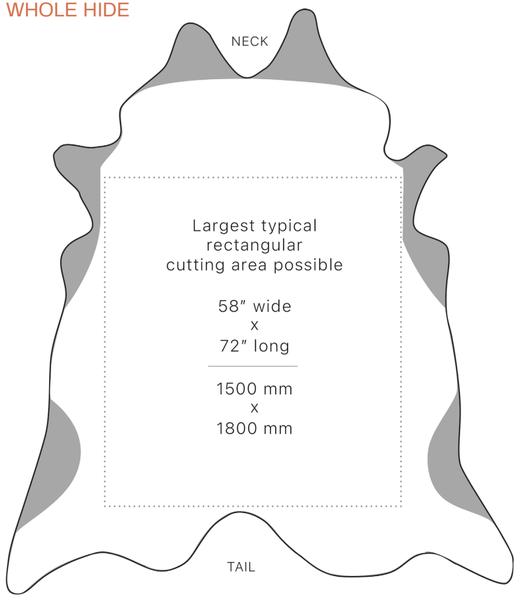
HALF HIDE



41″ (1040 mm)

Average Cow Whole Hide Size
50 sq ft +/-

WHOLE HIDE



82″ (2080 mm)

Typical Cutting Area
Approx. 58" wide x 72" long (4 FT2 x 6FT2)
** Some exceptions (Veg Tan/Splits)

Average Buffalo Whole Hide Size
35 sq ft +/-
