

CTL LEATHER

A Garrett Leather Company

**CTL Leather Average Dimensions
of a Typical Cowhide**

AVERAGE DIMENSIONS OF A COWHIDE

This diagram should be used as a guide when determining square footage requirements.

We can guesstimate FT2 you require, however this usually comes from the upholsterer, as it all depends on what you are willing to ‘SHOWCASE’ as natural characteristics in the finished goods.

This is a natural product and not like vinyl or fabrics, natural aspects within those measurements should be considered.

Below is a diagram to show you an average usable area, this said it all depends on the leather type and natural characteristics at hand. The more coverage/printed/pigmented leather, the larger/sometimes cleaner the cut.

Typical Cutting Area
Approx. 58" wide x 72" long (4 FT2 x 6FT2)

Average Whole Hide Size
50 sq ft +/-
** Some exceptions (Veg Tan/Splits)

Average Half Hide Size
25 sq ft +/-
